

SECURE SHREDDING SERVICES

Iron Mountain: Fidelity National Title Group's Preferred Secure Shredding Partner

“Federal law requires companies that possess Non-public Personal Information for a business purpose to dispose of such information properly in a manner that protects against unauthorized access to or use of the information.”

-ALTA Best Practice #3 from www.ALTA.org

STAY CURRENT AND COMPLIANT WITH ALTA BEST PRACTICES

You can now take advantage of Iron Mountain's Secure Shredding services at a discounted rate thanks to the preferred vendor partnership between Fidelity National Title Group (FNTG) and Iron Mountain.

FNTG is committed to adhering to American Land Title Association's (ALTA) best practices. And number three of their seven guidelines recommends that settlement agents securely dispose of non-public personal information.

Compliance with this best practice and federal law is imperative and is not only in the best interest of protecting your privacy and identity, but it will also help protect you against associated fines, liability and reputation damage.

WHY IRON MOUNTAIN'S SECURE SHREDDING SERVICES

With Iron Mountain's secure document destruction services, you'll be able to safely and cost-effectively destroy confidential, private paper-based documents while overcoming your information security challenges. Additionally, Iron Mountain's Secure Shredding services make it easy to comply with ALTA best practices and federal law while also helping you:

- ✓ Maintain a consistent, auditable chain of custody from pickup to destruction
- ✓ Stay current and compliant in an ever-changing regulatory climate
- ✓ Retain complete visibility via reporting and online monitoring tools that help you keep control over your program, services, and cost
