

# Complete Closing Enterprise

## Closing and Escrow Accounting Production and Automation

*Complete Closing Enterprise™* is the comprehensive Closing and Escrow Accounting production component of *RamQuest's Complete Closing Solution™*. The flexibility, functionality, and capability it provides will help your business achieve cost-effective growth and gain the competitive edge you need to continually increase efficiency and market-share.

### OVERVIEW OF FEATURES

- » **Logical and intuitive interface.** Users can be proficient with Complete Closing Enterprise in two (2) days.
- » **Completely configurable.** Solve all of your specific business needs with custom application enhancements.
- » **Free report writer (CCReports).** Unlimited real-time reports. This means you can run reports at any time to see an instant status of workforce.
- » **File, order, and employee productivity tracking.** Effectively and accurately forecast while instantly identifying the strengths and progress of your work force.
- » **Easily integrates with other applications.** Reduce data entry. Automatically populate information from LOS, or into financial application.
- » **Built-in RTF Document Generator and Helper.** Create custom documents and eliminate the use and need to upgrade word processing software.
- » **Regional security model.** Security with full control. Ability to isolate branch offices and fee attorneys from each other.
- » **Escrow accounting tools.** Perform escrow accounting, maintain multiple accounts, and reconcile bank statements.

### SEAMLESS INTEGRATION

Complete Closing Enterprise™ provides the foundation for RamQuest's Complete Closing Suite and offers a seamless integration to PaperlessCloser™, FileScan Plus!™ and Closing Market™.

### GROWTH OPPORTUNITY

Closing Market is the component of RamQuest's Complete Closing Suite that enables automation of your operation with a business-to-business, system-to-system network, enabling title companies, lenders, and settlement service providers to order, exchange, and fulfill title and settlement products and services across a secure digital connection. Title companies using Closing Market are easier to do business with and have a competitive advantage because they provide a greater level of service in an efficient manner that helps keep operations profitable and strengthens customer relationships.
